

Sustainable Solano

Resilient Neighborhoods “Resilient Hub” Design Approval

Date _____

_____ We approve the proposed design of the Resilient Neighborhoods “Resilient Hub” (attached) to be installed at _____

_____ The dates of our Resilient Hub installation are: _____

_____ (if applicable) We understand that additional plumbing components are required for a proper irrigation system; these components are not included into a basic irrigation system offered as a part of the Program; it’s our sole responsibility to pay for and to install the following missing components:

_____ (if applicable) We understand that the following additional actions / steps have to be taken before the installation:

_____ I understand it is my sole responsibility, and not Sustainable Solano’s responsibility, to insure this Final Design is in compliance with:

- Any and all government ordinances, codes and regulations,
- HOA rules and regulations,
- Home insurance policies,
- Any other potential limitations on landscaping of our property

_____ I will consult my with my Homeowner’s insurance policy if this Final Design voids my insurance policy, and if my insurance policy suggests or requires additional coverage for the action of implementing this Final Design.

_____ Any other special considerations: _____

HOMEOWNERS: _____

Signatures: _____
