Be good to the earth, with help

Air Quality DIY Home Air Filter Workshop 12:30-2 pm Sunday, April 23

Fairfield DIY Air Filter Workshop Civic Center Library, April 23, 12:30-2 pm

- Led by Dr. Nick Spada from the UC Davis Air Quality Research Center
- Learn about air quality issues in Fairfield and how we can clean our air
- Learn how and receive free materials to build your own home air filter
limited supplies are available

Linear Park Community Clean Up Dover Ave Entrance, April 29, 10-12:30 pm

- In partnership with Fairfield Public Works, help beautify our city and make our trails more walkable
- Learn about Fairfield's air quality issues and the proper ways to sort recyclables, compost, and waste
- Gloves, trash bags, hand sanitizer, and light refreshments will be provided

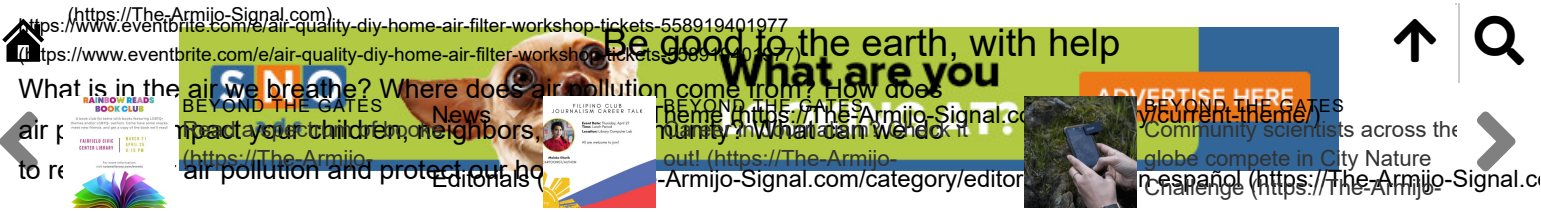

To learn more about Fairfield's air quality or upcoming events, visit SustainableSolano.org/air-quality/ or email alex@sustainablesolano.org

Allison Nagel (https://The-Armijo-Signal.com/staff_name/allison-nagel/), Workforce Development and Communications Manager, Sustainable Solano
April 15, 2023

Dr. Nick Spada will be joining us to answer all these questions and lead a workshop on how to build a cost-effective home air filter.

The Armijo Signal (<https://The-Armijo-Signal.com>)
 Dr. Spada is a scientist at the Air Quality Research Center of the University of California, Davis. His research focuses on the prevalence of metals in air pollution, which he uses to support large-scale national monitoring as well as targeted studies in front line communities.
